### Notes or Special Guidance for Majors:

\*Course has prerequisite

<sup>F</sup> Fall only course

<sup>S</sup> Spring only course

# Offered every other year

<sup>1</sup> Courses that meet CATC tags: Many elective or prerequisite courses for the Interdisciplinary Studies programs of study carry Thematic Core tags.

<sup>2</sup> Note that IDS 291 is open to freshmen students who have not yet been admitted to the IDS program as an opportunity to explore their interest in applying to the program in the fall of their freshman year.

<sup>3</sup> Students accepted to the Interdisciplinary Studies major (a selective program) create an approved **Program of Study (POS)** to plan their upper-division courses across two or three academic disciplines: two disciplines require 12 upper-division credit hours each (24 total); three disciplines require 8 upper-division credit hours each (24 total). One of the upper-division courses must be approved as an integrative or bridge course, clearly linking the chosen disciplines in the program of study thematically.

-Students may apply to the IDS program after 30 credit hours have been completed. See the program website for details on the application process.

- Students can apply to the program through the end of their sophomore year and begin work on their POS courses as late as the fall of their junior year.

-Internship hours do not apply directly towards the major. An IDS Internship is not required, but is encouraged as appropriate.
