

# PARTNERSHIP IN PRACTICE

## BEST PRACTICES THAT FACILITATE PARTNERSHIP BETWEEN CAMPS, FAMILIES, AND CHURCHES

One of the goals of the Growing Faith Together project is to identify best practices that facilitate partnership between camps, families, and churches and that foster faith formation in the home. Through our work with our core camps, we've identified a long list of strategies that camps use to partner with churches and families in this endeavor.

You might recognize the layout from Phase 1 – there are three audiences and three time points to consider. The goal of this resource is to provide camp leaders with a list of possibilities. We recommend gathering your team and using this as a foundation for brainstorming what might work best in your context.
